

PACIFIC MOO BIZ

CHEN WEI SENG

Winner, sports action
Bull race

Chen Wei Seng of Malaysia's photo of a jockey showing relief and joy at the end of a dangerous run across rice fields during the Pacu Jawi bull race in Batu Sangkar, West Sumatra, was taken on Feb. 12, 2012.

from 300 cows into powder in 30 seconds.

• Peter Vink Sr. - My father-in-law told a school story of two Spanish ships descending on one Dutch ship. The crew on the Dutch ship were asked to think fast, so they smeared butter on all the decks of their ship. When the Spaniards jumped on the deck, they either slid right through & off the ship or they could not stand up at all.

Fistulated Cows

Pacific Dairy is offering a commercial first for Canada, in a new method introducing fresh, healthy rumen liquid from a healthy cow over to a sick cow. This new method of using a young cow, a veterinarian's incision, a one way plug and Drench mate equipment using a stainless steel extractor is a non-evasive natural method of treating sick animals. This method has been proven all over the world. The system will work nicely for farms with 100 plus cows. With the reputation of Drench Mate equipment, Drench Powder & Drench Drink all made close by in Lynden, Wa., we will work with your local veterinarian to accomplish best results.

More Random (By the Whey)

- Poutine Week - It's an all out grease and gravy extravaganza that happens every year in Montreal.
- Gung Hay Fat Choi - means have a prosperous New Year or does it mean "gone hay fat cow"?
- Butter - is gold in the morning, silver at noon, lead at night.
- Milcher - is old "English" for cattle that are reared for milk.
- Kine - an archaic English plural word for cow.

Newsletter Volume 29 - No.3
March 2013

- Bos - is a kind of cow from Tibet.
- Parmesan - is a cheese that keeps longer than other common varieties of cheeses, such as mozzarella or cheddar because of its lower moisture and higher salt content.

P.S. - Many words in our Newsletter are good for Scrabble!

Houle Tank Facts

- Have built tanks since the 1950's.
- Build the most tanks in North America.
- Most preferred by custom workers.
- Also available in stainless steel.
- All tanks are 1/4" thick all over.
- All tanks have either no calipers or double brake calipers.
- Can be ordered with air brakes.
- All tanks use a Eurothane paint.
- Houle tanks use no drag links for steering.
- Tandem leaf spring running gears are available.
- Fire engine brakes are available. (20 inch drums)
- There is also a fifth wheel version.
- Self fill booms are available.
- There are many tire choices.
- Large tanks come in at 12 lbs. per square inch ground pressure
- On most tractors you can look over the backs of tank.
- There are over 100,000 gallons worth of Houle tank space moving manure in B.C.
- Brake, Steering and Suspension on Houle tanks are hard to beat.
- Almost a tank a day rolls out of Houle's manufacturing facility.
- **THEY ARE ALL CANADIAN BUILT!**

MMMM - Manure

Thanks to all of the 135 Dairy producers from 85 farms who came out to our manure summit symposium at the Ramada Inn in Abbotsford on Feb. 26th. The speakers from top notch Manure companies like Houle, Daritech, Slurrystore, Cadman and others were enlightening and educational. We hope that with you and them, we can all make a difference for your farm and the environment. Best practices with best equipment produce best results. We would also like to thank all the dairies we rolled onto with Daritech's DTX manure separator with Roller Presses. Fourteen dairies in 5 days with different venues such as Scrape, Flush, Sand, Closed Loop Flush, Slatted Floor, Heifer and Slurry Cow Manure. At each farm, the DTX was up and running in less than an hour without any adjustments.

Random Info

- Roux - is a cooking mixture of wheat flour and fat (traditionally butter). It is a thickening agent of three of the mother sauces of classical French cooking, also well known in Louisiana.
- Butterbeer - an Irish and English ancient recipe going back centuries which takes melted butter in a pot, then pouring in beer to warm it. J.K. Rowling has made the drink famous in her Harry Potter books.
- Fonterra - a world renowned milk processor in New Zealand that now has a plant that can make the milk
